

Retrofit Package: **Automatic Belt Oscillation**

Steinemann Upgrade New Oscillation

Description

The new Steinemann oscillation leads to remarkable cost savings and improves the quality of the sanding process. As a result, the belt oscillation is more constant and homogenous.

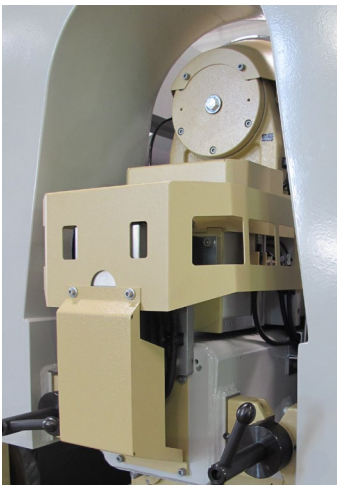

Suitable for

- Satos

Advantages

Cost savings: faster belt change, improved belt track, automatic tuning, undisturbed belt drive (no tuning during operation), no compressed air consumption.

Quality improvements: optimized utilization of abrasive belt, constant and homogenous oscillation, adjustable oscillation parameters.

Content Package

- Kit to replace the oscillation cylinder
- Linear belt tracking
- Start stop automatic
- Software upgrade
- Local junction box
